PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building scalable, responsive web applications using React.js, TypeScript, Node.js, and REST APIs. Strong frontend expertise with hands-on backend integration, delivering data-intensive dashboards, real-time monitoring interfaces, and healthcare workflows. Experienced in leading frontend architecture, conducting code reviews, and collaborating with cross-functional teams to meet delivery timelines.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, Zustand, TanStack Query (React Query), TanStack Table, Material-UI (MUI), MUI DataGrid, Tailwind CSS, Highcharts, React Flow, Zod, Vite, Responsive Design, Web Accessibility
Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, WebSockets, Authentication (JWT, OAuth), Role-Based Access Control
Databases: MongoDB, PostgreSQL, MySQL, Redis
Testing: Jest, React Testing Library, Cypress, Playwright
DevOps & Tools: Git, Docker, AWS, GitHub Actions, CI/CD, Performance Optimization, Code Review

PROFESSIONAL EXPERIENCE

Software Engineer Jul 2022 – Present
NextLoop Technologies LLP, Indore, Madhya Pradesh

- Engineered high-performance, responsive web applications using React.js and TypeScript, integrating REST APIs to support data-intensive features.
- Partnered with designers, backend developers, and product managers to deliver and optimize product features.
- Refactored existing code to improve application performance, scalability, and long-term maintainability.
- Strengthened code quality by conducting code reviews and enforcing development best practices.
- Built reusable React UI components and implemented efficient state management, improving consistency across the user experience.
- Evaluated emerging frontend technologies to identify improvements in development efficiency and application performance.

PROJECTS

EMS – Energy Management System 2025 – Present
Lead Frontend Developer

- Led frontend development of a responsive energy management dashboard using React.js, Vite, Material-UI, Tailwind CSS, Zod, Highcharts, and TanStack Query/Table.
- Architected reusable UI components, interactive charts, MUI DataGrid tables, filters, and tabbed views for real-time energy monitoring.
- Implemented Zod validation and TanStack server-state management to improve data accuracy and load performance.
- Owned frontend architecture, code reviews, and delivery timelines, coordinating with backend and design teams.

Xecta Web Application May 2023 – Present

- Led frontend development of a responsive, dynamic web application using Material-UI and CSS, improving UI/UX and performance.
- Built interactive data visualizations using React Highcharts and React Flow, making complex data easier to interpret.
- Partnered with cross-functional teams to integrate frontend features seamlessly across the application.

Data Visualization and Analytics Dashboard Oct 2022 – Apr 2023

- Enhanced an interactive, real-time data visualization dashboard using Material-UI and Highcharts.
- Designed reusable UI components for consistency and scalability, with efficient performance on large datasets.

MediCare – Healthcare Patient Management System Dec 2021 – Sep 2022

- Developed a secure, responsive full stack healthcare application to manage patient records, appointments, and clinical data.
- Built reusable UI components using React and TypeScript, and integrated RESTful APIs for data handling.
- Implemented role-based access control (RBAC) and optimized performance through efficient state management and API usage.

EDUCATION

Master of Science in Computer Science Jul 2019 – Jun 2021
Awadhesh Pratap Singh University, Satna, Madhya Pradesh

Bachelor of Science in Computer Science Jun 2016 – Jul 2019
Awadhesh Pratap Singh University, Satna, Madhya Pradesh

Full-Stack Web Development (Professional Training) Aug 2021 – Apr 2022
Universal Informatics, Indore, Madhya Pradesh
